Opmerkingen

AAL-laagte: sterk verland en overwoekerd door pitrus en liesgras; kleine planten daardoor niet te vinden
Ijzerhard (*Verbena officinalis*): op voetpad naast de weide ; vrij zeldzaam

2Sph:20/4/15 het terrein zwaar gegierd;16/6/15 bleek alles gemaaid te zijn; 24/4/17 mest geïnjecteerd.

HvK: 2015 de zuidkant is zeer nat geworden; er staat daar ongeveer 5 cm water; pitrus nam toe in dat gebied

HvK: 2017 de zuidkant is zeer nat geworden; er staat daar ongeveer 75 cm water; pitrus nam toe in dat gebied

HvK: 2017: na reparatie lekkage; weiland omgeploegd en strooisel van dijken opgebracht

1LK: 2017 Veldgerst nergens te vinden! Door koeien zeer kort afgegrasd; grassen moeilijk te herkennen.

2LK-paardenweitje: 2017 afgegraven voor 2 poelen; waarneming is 2 maanden na de afgraving; massaal Lic

d
ed; lekkage waterleiding

drus en Ridderzuring; aanwezigheid met x aangegeven

natte laagten
